Education

University of Waterloo - B.A.Sc., Mechatronics Engineering

Sept 2025 - Apr 2030

- President's Scholarship Recipient

Technical Skills

-
- **CAD & Software:** AutoCAD, C++, Excel, SolidWorks (CSWA-Certificate ID: C-7S5V6LYR24)
 - **Fabrication & Manufacturing:** Automotive painting, Carbon fiber fabrication, Metal fabrication, Autobody repair, MIG welding, GD&T, Machining

Experience

Ontario Drive & Gear Quality Engineer - Waterloo, ON

May 2026 - Aug 2026

- Personally led in-depth **capability analysis** on **4** unique parts to determine corrective action to improve quality of parts using **Minitab and Excel**
- Generated **40+ inspection specifications** from **mechanical drawings**, allowing for a standardized inspection process and assisted with production release readiness
- Supported **PPAP/FA submissions** by generating **capability presentations** that revealed critical insights and guided key management decisions
- Oversaw the resolution of **200+ Non-Conformance Reports**, contributing to enhanced quality control, joining in on daily meetings, and managing the online NCR database
- Extensive knowledge of **gear manufacturing** and development processes

Advantage Ford Shop-Hand/Lot Attendant - Calgary, AB

Aug 2023 - Aug 2025

Shop-Hand

- Maintained a **20+ bay** dealership garage by servicing hoists, cleaning service bays, and managing waste disposal, increasing garage productivity
- Conducted basic automotive service such as **oil changes, tire balancing, and battery checks**, developing strong mechanical understanding
- Reviewed **engine failure** cases alongside technicians, including coolant-oil mixing, excessive oil consumption, and engine block damage, gaining an **understanding** of common **engine failure** modes

Lot Attendant

- **Inspected factory new Ford cars** from the factory for defects such as paint damage and rim damage to **report to Ford Canada**
- Greeted customers in the service drive-thru, and documented their service based concerns, helping maintain strong customer satisfaction
- **Reduced wait times** by efficiently parking, washing, and staging customer vehicles **through a pre-wash system**
- Operated **20–35 vehicles** per shift, including commercial vans and heavy-duty trucks

FSAE University of Waterloo Aerodynamics Team Member - Waterloo, ON

Sept 2025 - Present

- **Designed** and tested **whiskers** for the front nosecone using **SolidWorks** for the 2027 car
- Helped **fabricate** aero components using carbon fiber, and machined components such as bearings for the car
